

8 Leadership Lessons to Live By

Supercharge your management skills in 60 minutes

What do great leaders really do?

As one of the greatest CEOs of all time, Jack Welch transformed GE into the world's most successful company with his innovative management techniques. He continues to impact the business world as a bestselling author, speaker and advisor to dozens of today's top organizations.

In an interactive session led by our dedicated leadership coach, this powerful webinar delivers practical, proven tools and takeaways from Jack that you can put to work immediately to help solve your most pressing leadership challenges. You'll come away better prepared to:

- Set and communicate a vision for how you're going to help your organization win
- Build and coach your team for success
- Energize people for top performance and increased productivity
- Inspire and reward smart risk-taking
- Make tough calls and understand when to use gut instinct
- Create a culture of trust, transparency and candor
- Become a magnet for great ideas and learnings from every corner of your organization
- Celebrate successes large and small the right way

Don't miss this opportunity to learn actionable guiding principles that will help you win in life and at work.
